

Ancient Vedic Mantras and Rituals

Chandra Darshan | अमावस्या के बाद कब होंगे चंद्र दर्शन | PDF

Chandra Darshan

On the day of Pratipada, which comes after Amavasya, the moon rises, and it is on this day that the moon is sighted. According to Drik Panchang, In July 2026, Chandra Darshan will be observed on **Wednesday, 15 July 2026**. After the New Moon (Amavasya), the best time to sight the Moon is shortly after sunset. On this day, the most auspicious time for **Chandra Darshan is from 7:21 PM to 8:19 PM**.

In the Sanatan tradition, the Moon is considered to be the factor of the soul. With its blessings, a person becomes mentally strong and is able to take important decisions easily, whereas when a person is weak, his mind is constantly restless and he remains worried about small things. People in whose horoscope Chandra Dosh is causing trouble or those who want to get the blessings of good luck and fortune from Chandra Dev should do special worship and darshan of the moon after Amavasya.

Religious significance of Chandra Darshan

In Hinduism, observing the moon on Amavasya has great religious significance. It is believed that by worshipping the Moon God according to rituals and chanting mantras on the day of Chandra Darshan, the seeker gets special virtuous results. Therefore, Chandra Darshan is celebrated with great respect and devotion in different parts of the country. In such a situation, to attain happiness and good fortune, do visit and worship the Moon God on these dates.

This is how you should worship Lord Chandra

Each of the 12 full months of the year has its own meaning. There is a custom of worshipping Chandra Dev on the day of Purnima. According to the scriptures, it is considered auspicious to offer a lota of water and milk after moonrise on the night of Purnima. This keeps the divine grace of the moon. Visiting Chandra Dev on the day of Purnima and chanting the mantra “Om Som Somay Namah” 108 times will bring great success in your life. After the moon rises on Purnima, vegetables and rice mixed with raw milk are offered to Chandra Dev. This pleases Chandra Dev and provides health benefits. In such a situation, it is very important to worship Chandra Dev on Purnima day.

Chandra Darshan for happiness, peace and prosperity

Chandra Darshan is very important in Hinduism. According to mythology, this day has religious significance. On this special day, Lord Moon is worshiped with full devotion. According to Hinduism, seeing the moon on this special day is very fruitful. It is also considered a sign of good luck and prosperity.

Chandra Darshan is considered to be Lord Moon in Hinduism. It is believed that worshipping the moon brings good luck, peace and prosperity in the house and other gods are also happy. Worshipping Lord Moon brings success and happiness in the house.

Special rituals related to Chandra Darshan

Women especially observe fast on this day so that they can receive blessings from God for the long life of their spouse and children.

On this special day, the Hindu Moon God is worshipped devoutly and his blessings are sought. On this day, devotees worship with all their heart to please Lord Chandradev.

During the fast, devotees do not eat any food. The fast ends only when the moon appears and prayers are offered devoutly.

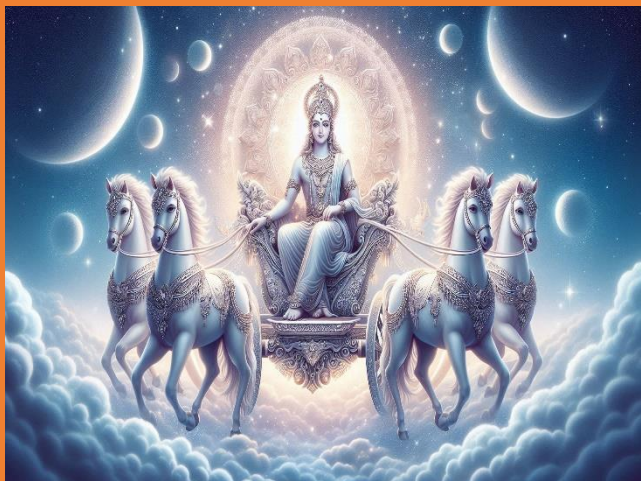

Worshipping the moon is very auspicious and is said to bring good luck and prosperity to your home. Donating on this special day is considered very auspicious. Apart from this, donating sugar, rice and clothes to Brahmins is even better.

Also beneficial for health

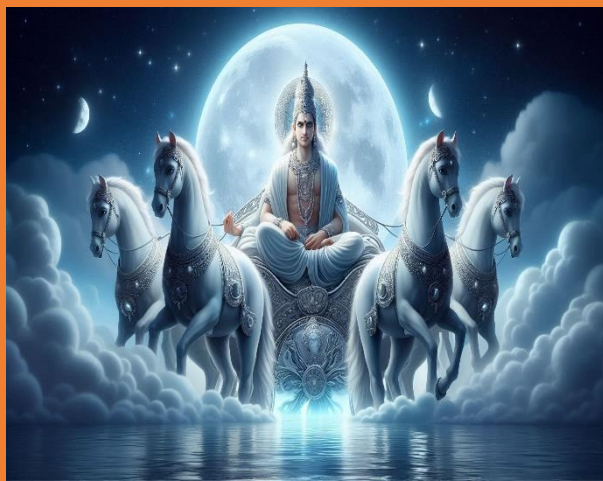

Chandra Darshan not only has religious significance but also helps in keeping the body healthy. It is said that fasting on this day creates a good balance of Kapha, Pitta and Vata elements in the human body, which does not cause any disease. This means that Chandra Darshan is also very beneficial from the health point of view. Chandra Darshan has great importance in Hinduism because the moon is seen as a deity. Chandra Darshan means “seeing the moon”. In India, it is celebrated with great respect and reverence. It is called Chandra Darshan because it can be seen after Amavasya .
